SKILLS

Languages:
• C/C++
• Html • CSS • Javascript • TypeScript

Technologies:
• MERN Stack • AWS Cloud • GraphQL • React Js • TailwindCSS • SASS • Bulma CSS

Databases:
• MongoDB • MySQL • Snowflake

Dev Ops:
• Git • AWS

Dev Tools:
• Visual Studio Code • Github
• BitBucket

Tooling And Integrations:
• Zapier • Airbyte • Customer IO • Lightdash • Retool • Pipedrive

CERTIFICATES

IBM Certification:

• **Getting Started with Git and GitHub | June 2024**,

• **Developing Front-End Apps with React | June 2024**,

• **Creating Back-End Apps with Node.js and Express | July 2024**,

• **Introduction to Cloud Computing | July 2024**

ACHIEVEMENTS

• Ranked **584** in the NIMCET!

• Solved **200+** Leetcode Problems

• Solved **50+** Coding Ninjas Problems

PROFESSIONAL SUMMARY

I am a Software Developer experienced in designing, building, and maintaining scalable web applications using modern frameworks, APIs, and databases.

EDUCATION

NATIONAL INSTITUTE OF TECHNOLOGY

Masters in Computer Application
August 2022 - 2025 | Raipur, Chhattisgarh

EXPERIENCE

FREELANCING | Full Time

December 2025 – Present | 3 months | Remote | Software Developer

- Developed full-stack web applications using **React.js, Node.js, and FastAPI**, delivering scalable solutions for partner-integrated platforms.
- Studied and analyzed the **Sportsradar NBA API** to understand data structures and event feeds, then designed equivalent indexing functions and abstractions to efficiently process and retrieve sports data.
- Built a **B2B dashboard UI in React.js** enabling partner companies to manage and monitor platform activities through a clean, modular interface.

75WAY TECHNOLOGIES | Full Time

Jan 2025 – Dec 2025 | 11 months | On-site | Associate Software Engineer

- Contributed to multiple projects (4+), leading end-to-end feature development, UI components, and REST API integration within a microservice architecture, impacting over 5,000+ users across platforms.
- Deployed mobile app updates to **Google Play and App Store**; implemented **AWS Lambda functions, S3 storage, API Gateway, and EventBridge cron jobs**. Improved system monitoring with CloudWatch and reduced query latency through optimization of complex **PostgreSQL queries**; Tracked **KPIs** to guide development.

PRAXIA SKILL | Part-Time

february 2025 – March 2025 | Online | Full Stack Developer

- Developed a dynamic course input form for instructors, allowing seamless creation and management of 5+ e-learning courses.
- Refined user interface elements using **Tailwind CSS** to ensure a consistent and responsive design across 3 screen sizes.

PERSONAL PROJECTS

DISMEFA MEDICOS | MERN Stack, TailwindCss, MongoDB, Stripe

April 2024

- Engineered a comprehensive **e-commerce platform** specializing in pharmaceuticals, facilitating secure transactions for users.
- Designed an intuitive **administrator interface**, aiding productive management of inventory, customer orders, and user accounts.
